

IMAPS v1.2.0 (Interoperability Maturity Assessment for Public Services)

The IMAPS v1.2.0 is an online self-assessment tool that allows public service owners to measure the interoperability maturity of their Digital Public Services

For further information, please visit:

https://ec.europa.eu/eusurvey/runner/IMAPS-v1_2_0

Features

- Helps public service owners **evaluate, improve** and consider **all** key interoperability aspects of their public service, looking at the context of their **Service Delivery (D), Service Consumption (C)** and **Service Management (B)**.
- Fully compliant with latest version of the **European Interoperability Framework (EIF)**
- Covers interoperability across **all four EIF interoperability views** (Legal, Organisational, Semantic and Technical)
- A **compact** and highly **user-friendly** online self-assessment survey

Expected Benefits

- ✓ Provides **immediate insight** into a public service's interoperability and tailored recommendations on how to improve its interoperability where necessary
- ✓ Measures how well a digital public service **is able to interact with other organisations** to realise mutually beneficial and agreed common goals through the exchange of information and reuse of services
- ✓ Provides an opportunity to know and improve the interoperability of a public service **at any point in time** throughout the lifecycle of a public service
- ✓ Provides **on-demand peer comparisons** with other public services' interoperability maturity
- ✓ Applicable to **any national digital public service** in the European Union across any domain from open data portals to eVoting platforms, to public procurement services and more
