## 1. INTRODUCTION

### 1.1. Objective and purpose

This document contains the description of the release version 1.0.0 of CAMSS Assessment of ISO 3166-1:2020 Codes for the representation of names of countries and their subdivisions -- Part 1: Country codes (ISO 3166-1) 4.0 using the EIF scenario.

A CAMSS Assessment is a solution which corresponds to the output of an assessment of a standard, technical specification or standard developing/setting organisation using the CAMSS Assessment EIF Scenario. The version of the scenario used for the performance of the assessments was v5.0.0.

### 1.2. Release date

This version of the CAMSS Assessment of ISO 3166-1:2020 Codes for the representation of names of countries and their subdivisions -- Part 1: Country codes (ISO 3166-1) 4.0 has been released on the 29<sup>th</sup> of April 2022 in Joinup.

### 1.3. Description

CAMSS Assessment of ISO 3166-1:2020 Codes for the representation of names of countries and their subdivisions -- Part 1: Country codes (ISO 3166-1) 4.0 was released on the 29<sup>th</sup> of April 2022. This assessment has been performed following and using the CAMSS Assessment EIF Scenario. The purpose of this scenario is assessing the compliance of a standard or technical specification with the European Interoperability Framework (EIF)<sup>1</sup>.

### 1.4. Terminology

Acronym	Description
EIF	European Interoperability Framework
CAMSS	Common Assessment Method for Standards and Specifications
