1. INTRODUCTION

1.1. Objective and purpose

This document contains the description of the release version 6.0.0 of the CAMSS Assessment EIF Scenario Solution.

1.2. Release date

The CAMSS Assessment EIF Scenario v6.0.0 were released on the 30th of April 2023 in Joinup.

1.3. Description

The CAMSS Assessment EIF Scenario v6.0.0 release contains all the release components of the latest version of the scenario. The CAMSS Assessment EIF Scenario replace the old CAMSS Tools and from now on the each CAMSS Assessment scenario are independent CAMSS Solutions.

The CAMSS Assessment EIF Scenario is publicly available and support the fulfilment of assessments of standards and technical specifications and standard setting/developing organisations.

1.4. Terminology

Acronym	Description
CAMSS	Common Assessment Method for Standards and Specifications
EIF	European Interoperability Framework

Table 1: Acronyms

2. RELEASE COMPONENTS

CAMSS Tools consists of the following release components.

2.1. CAMSS Assessment EIF Scenario v6.0.0

CAMSS EIF Scenario provided by the CAMSS team and publicly available for the CAMSS community.

Modification	Details
Version 6.0.0	
Current version	This version of the CAMSS Assessment EIF Scenario includes the following main changes: - Wording and helptext review and changes. - Previous existing redundancies between criteria have been removed. - Addition of predefined answers for ETSI specifications. - Security and privacy aspects of the EIF scenario have been extended with the addition of six new criterions.
Version 5.1.0	
Previous version	This version of the CAMSS Assessment EIF Scenario includes the following main changes: - Wording and help text reviews and changes. - Amendment on predefined responses for criteria A3, A4 and A6. - Amendment on gradient responses in criterion A8.
Version 5.0.0	
	This version of the CAMSS Assessment EIF Scenario includes the following main changes: - The CAMSS Assessment Scenarios (EIF, MSP and TS) are CAMSS Solutions and they deprecate the previous CAMSS Tools. - Inclusion of the acronym of EIF to each section of the assessment scenario. - Replacement of the “standard” term by “specification” based on the Core Standard and Specification Vocabulary (CSSV). - Addition of gradient responses to certain criterion.

	- The weights of each response have been reviewed and the interpretation table of scores have been updated based on the new weigths. - All the criterion have been reformulated and put them in question format. - Clarification about the unit of analysis of the CAMSS Assessment EIF Scenario within the “introduction” section.
Version 4.0.0	
	This version of the CAMSS tools includes the following main changes: - The previous excel tool has been migrated to an EU Survey Form for each Scenario (EIF, TS and MSP) - It has been adapted to fit the EU Survey standards and technical requirements.
Version 3.1.0	
	This version of the CAMSS tools includes the following main changes: - Addition of Data Privacy Disclaimer to allow users to accept the personal data treatment as is provided in the Regulation (EU) 2018/1725. - Addition of a change control table to make CAMSS tool self-contained. - Compatibility towards latest versions of excel.
Version 3.0.0	
	This version of the CAMSS tools includes the following main changes: - Addition of the EIF scenario. This version of the tools includes a new scenario that assesses conformance with the EIF. - Deletion of SDO scenario. The SDO scenario has been removed from the tools.
Version 2.1.0	
Beta version	The version of the CAMSS tools includes the following main changes: - Change of the criteria from questions to favorable statements.

	- Change of the possible answers to the criteria according to the new statements.
Version 2.0.0	
	This version of the CAMSS tools includes the following main changes: - Addition of prefilling answers for two new SDOs, OpenEHR and GS1. - Improvements in the user experience.
Version 1.1.0	
	This version of the CAMSS tools includes the following main changes: - The count of criteria is "Favourable" and "Unfavourable" – instead of "Yes" and "No". - Colours in order to distinguish if the response of the criterion is "Favourable" or "Unfavourable". - Modification of visual aspects and into the formula to count the criteria with a favourable and unfavourable answer. - Modification of some of the wording of the criteria. - Deletion of some criterion. - Renamed categories. - Deletion of some elements. - Updated criteria.
Version 1.0.0	
Initial version
