JOINING UP GOVERNMENTS

**EUROPEAN
COMMISSION**

ADMS.F/OSS Working Group
Introduction

Szabolcs.SZEKACS@ec.europa.eu

ADMS.F/OSS Kick-off meeting

- Welcome

- This work is part of <u>Action 4.2.1.</u> on the ISA Integrated Collaborative Platform from the ISA Work Programme

- **Main goal**: to draft, agree on and use a common specification to describe software assets (... definition to be discussed). This is the **Asset Description Metadata Schema** (**ADMS**) for F/OSS.

Consensus building

- The involvement of all stakeholders is essential for the ADMS.F/OSS project to succeed

- **Participants** (so far):

    – Origin: 9 countries, 5 e-Government F/OSS initiatives have confirmed participation in the work

    – Types of: MSs representatives, external experts

- **Scope**: MSs central government, regional/local authorities, general purpose software forges, F/OSS projects, European Commission, international organizations, standardization organizations

- Thank you for your interest and your participation!

- Establishment of the Working Group by 24 January 2012;
- Weekly Virtual Meetings (1 hour meetings) as from 24 January 2012 until end of February;
- Preparation of draft specification by 21 February 2012
- Delivery of final draft by 27 February 2012
- Public comment period in March 2012
- Delivery of final specification for endorsement by ISA Coordination Group by 10 April 2012
- Implementation of an ADMS.F/OSS export plugin for GForge/FusionForge
- Implementation of ADMS.F/OSS on Joinup
