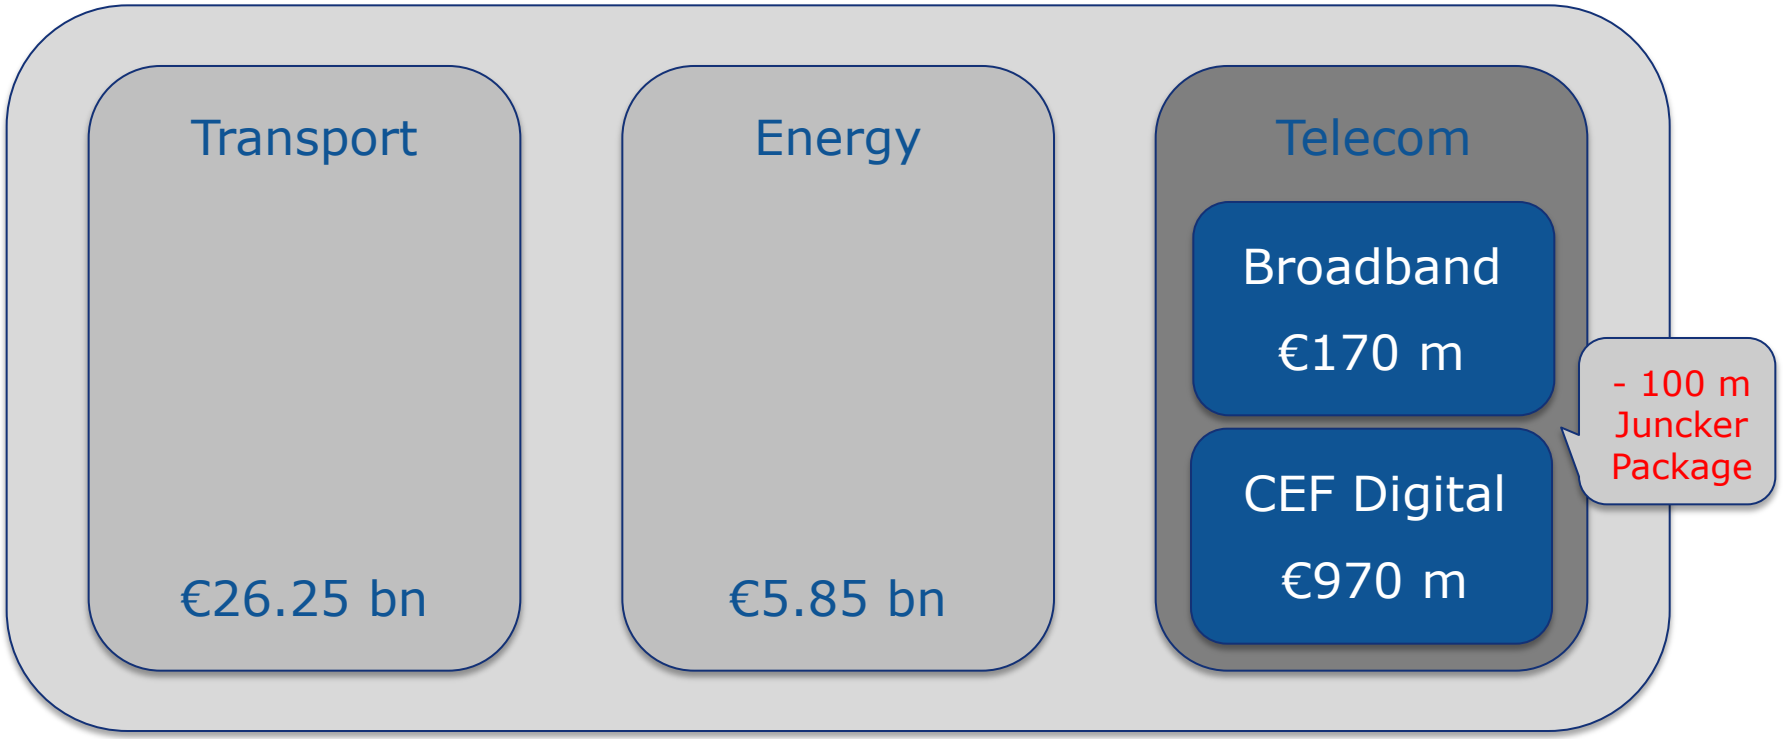
Connection Europe Facility

2014 to 2020

Connecting Europe Facility (CEF)

Infrastructure programme to support the establishment of trans-European networks to reinforce an interconnected Europe



Digital Service Infrastructures (DSIs)

- **Building block DSIs provide basic functionality and are reusable by sector-specific DSIs**

  Examples are: Interoperability of eIDs, e-Signature, e-Delivery, eInvoicing, Automated Translation, …

- **Sector-specific DSIs provide trans-European interoperable online services for citizens, business and public administrations**

  Examples are: eProcurement, eHealth, Open Data, Business Mobility, Better internet for Children, Online Dispute Resolution…

Reuse and sharing of building block DSIs

Reuse and sharing of building block DSIs

- Reduce **costs**
- Reduce **time-to-market**
- Increase **interoperability**

- Build an **eco-system**

Common rules and regulations

1st priority for funding:

- Building block DSIs

Public services

2nd priority for funding:

- Sector-specific DSIs in support of EU legislation and **using building block DSIs**

- Europeana and Better Internet for Children

European Commission

CEF Digital

Support the completion of the Digital Single Market by **connecting Europe through digital bridges across borders** to the benefits of citizens, businesses and public administrations

and makes Europe grow further together through service delivery based on an eco-system of architecturally coherent building blocks
