## 1. INTRODUCTION

Mission Plan profile describes which organization will perform which action in the event of an emergency according to country's emergency plan and organizational structure. The mission plan is generated and distributed by competent authority who is in charge of managing the emergency situation.

## 2. OBJECTIVES

The objectives of implementing this profile are:

1. Instructing related organizations before emergency.
2. Being prepared for emergency.
3. Managing emergency situations properly.
4. Facilitating emergency information sharing and data exchange across different organizations of different professions that provide emergency response and management services.
5. Supporting everyday events and incident preparedness, as well as disasters.
6. Increasing situational awareness.

## 3. SCOPE

This profile supports a process of distributing mission plan to organizations taking part in emergency operations. It is intended to ensure preparedness before emergency situation happens. The intended scope for this profile includes:

- Before emergency situations
- Among competent authorities, on-site coordination centers, local organizations, national organizations and non-governmental organizations

The transactions, specified in this profile are intended to be exchanged between organizations taking part in emergency operations. It is expected that sender and receiver organizations have had necessary infrastructure, which is specified in the profile, to enable them to send and receive the transactions in a secured way, using an agreed syntax.

## 4. PROFILE DETAILED DESCRIPTION

### 4.2. Roles Involved

Actor	Description
Competent Authority	The Competent Authority is the legal person or organization who is in charge of instructing emergency organizations and executing the mission plan.
Emergency Organization	The Emergency Organization is the legal organization who retrieves the mission plan in which it is responsible for performing specified action.

### 4.3. Actor Diagram

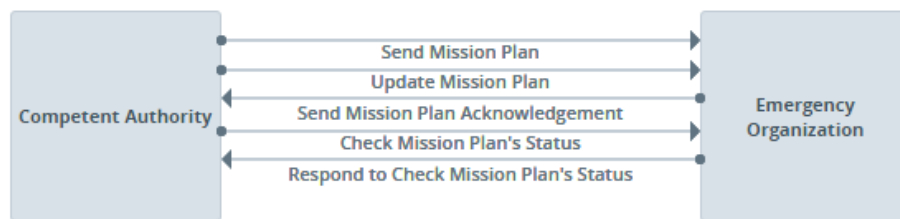

Figure above shows the actors directly involved in the Mission Plan Profile and the possible messages to be exchanged between them.

### 4.4. Transaction Information

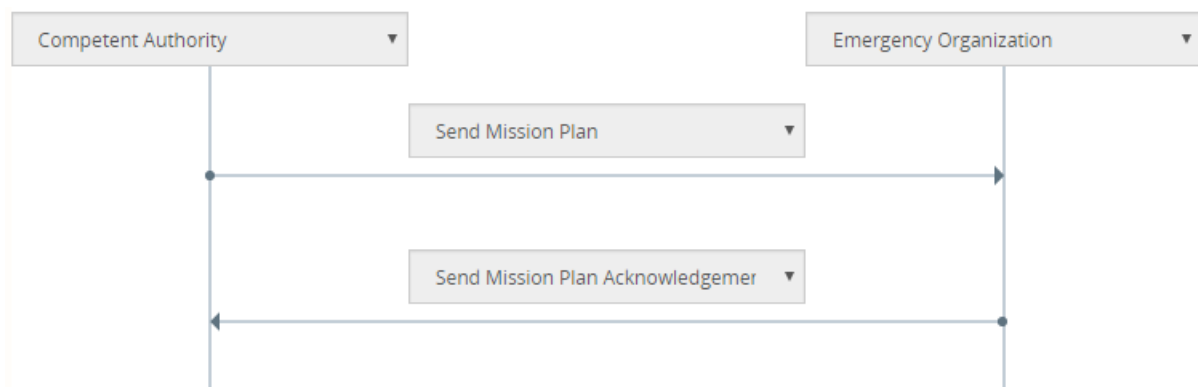

#### 4.4.1. Send Mission Plan

##### 4.4.1.1. Description

Categories	Description and Values
Identifier	0d5fcf15-8c39-4ccd-883b-cf2da492e89e

Description	The Competent Authority creates a mission plan and sends it to related organizations.
Actors	Competent Authority, Emergency Organization
Pre-conditions	<p>The Competent Authority and the Emergency Organizations have already identified each other.</p> <p>The Competent Authority have already been informed/alerted about emergency situation.</p>
Post-conditions	<p>The Emergency Organization has received the mission plan and sent an acknowledgement to the Competent Authority.</p> <p>If the Competent Authority do not receive an acknowledgement within the time specified, it assumes that mission plan has not reached to the Emergency Organization.</p>

### 4.4.3. Check Mission Plan's Status

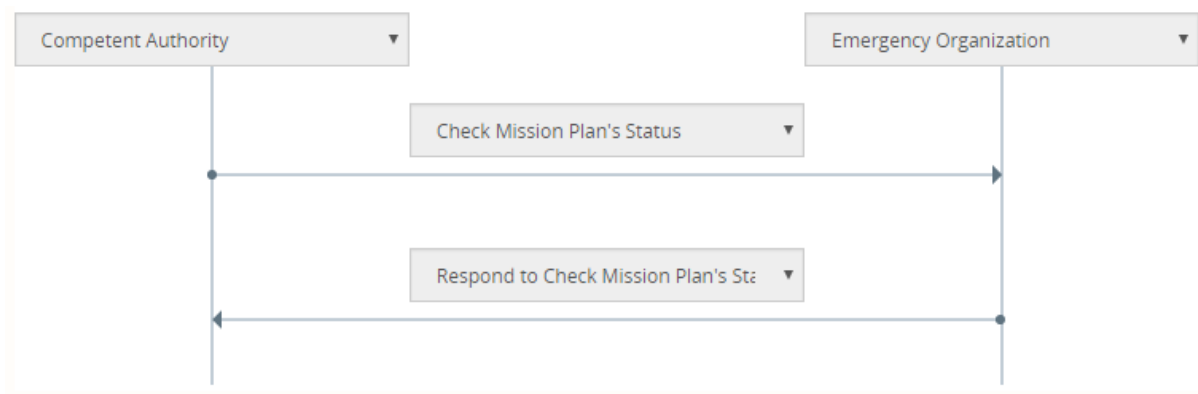

#### 4.4.3.1. Description

Categories	Description and Values
Identifier	ef636c7d-5d6c-4d81-a8ca-68baaad062f6
Description	The Competent Authority checks how the mission plan is being executed.
Actors	Competent Authority, Emergency Organization
Pre-conditions	<p>The Competent Authority and the Emergency Organizations have already identified each other.</p> <p>The Competent Authority have already sent a</p>

	mission plan to the Emergency Organization.
Post-conditions	The Emergency Organization informs the Competent Authority about the status of mission plan.
