OPEN HYDRO

TRANSFORMING WATER MANAGEMENT

EVERY DROP COUNTS.

EVERY ACTION MATTERS.

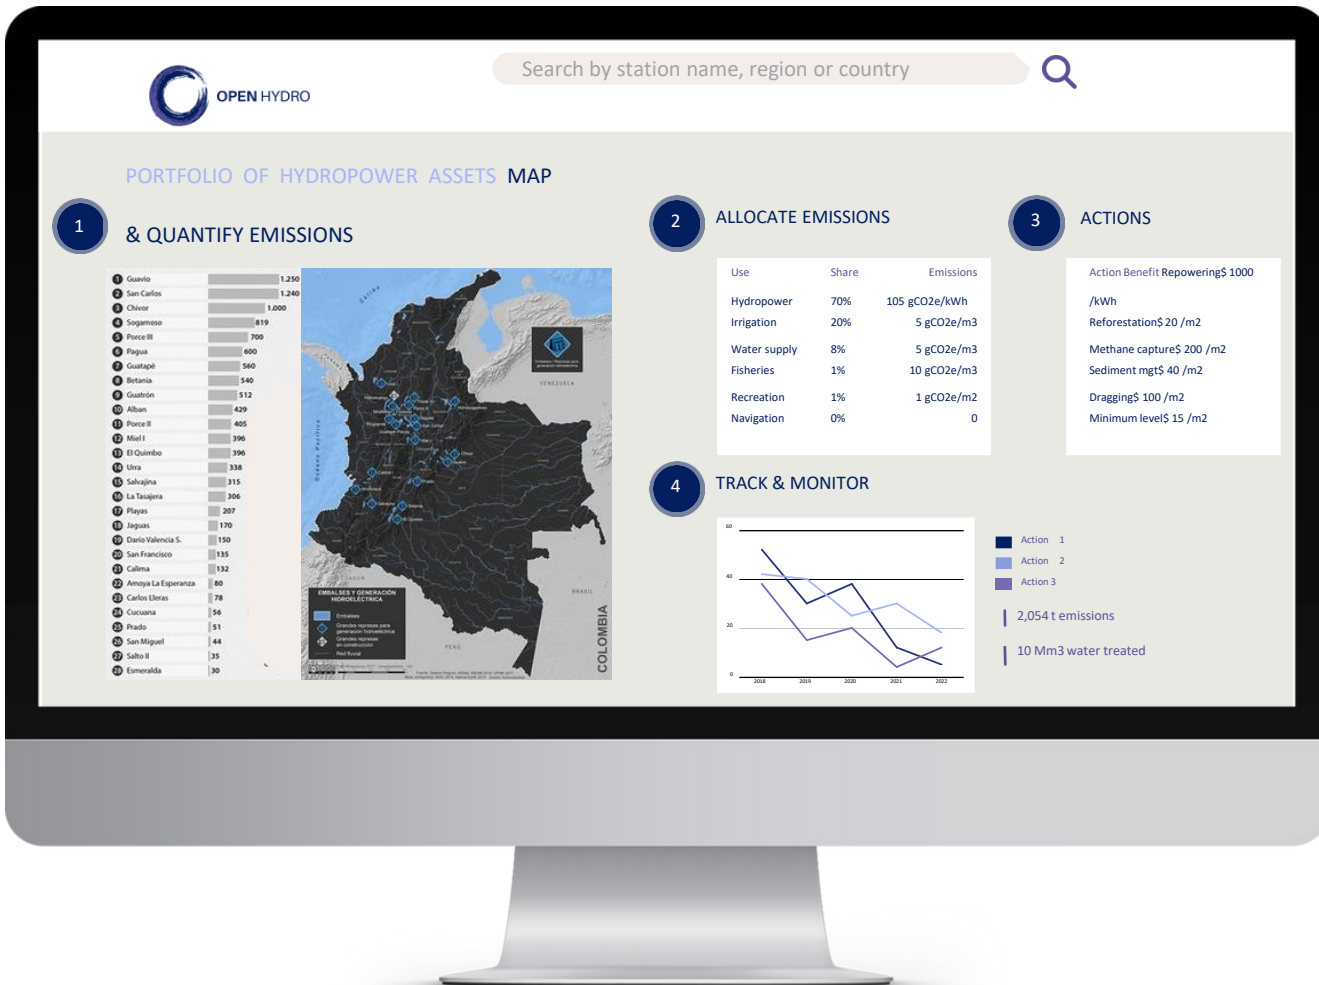

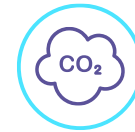

20% of global methane emissions comes from water

Over 1Gt of emissions from water bodies goes unaccounted every year, impacting net-zero goals and green finance access.

OUR SOLUTION

AI & Satellite-powered innovation
Revolutionising Emissions Assessment

Groundbreaking Software Solution
Real-time, Accurate Emissions Monitoring

Improving Water Quality
Reducing Emissions Equal to 20% of Fossil Fuels

Turning competitors into routes to market: sell via API to carbon accounting platforms & partner with consultancies

CARBON ACCOUNTING FROM WATER

WATER
EFFICIENCY

WATER
QUALITY

GENERALIST CARBON ACCOUNTING

OUR TEAM

 +20y climate & hydropower
 +25y managing teams

 +10y growing software startups
 +12y building software platforms

Cristina Diez
co-founder & CEO

Maria Ubierna
co-founder & CPO

Dominic Waithe
Lead Developer

STRONG MARKET TRACTION

Piloting with Leading Utilities

Industry Giants Backing Us

Industry partners

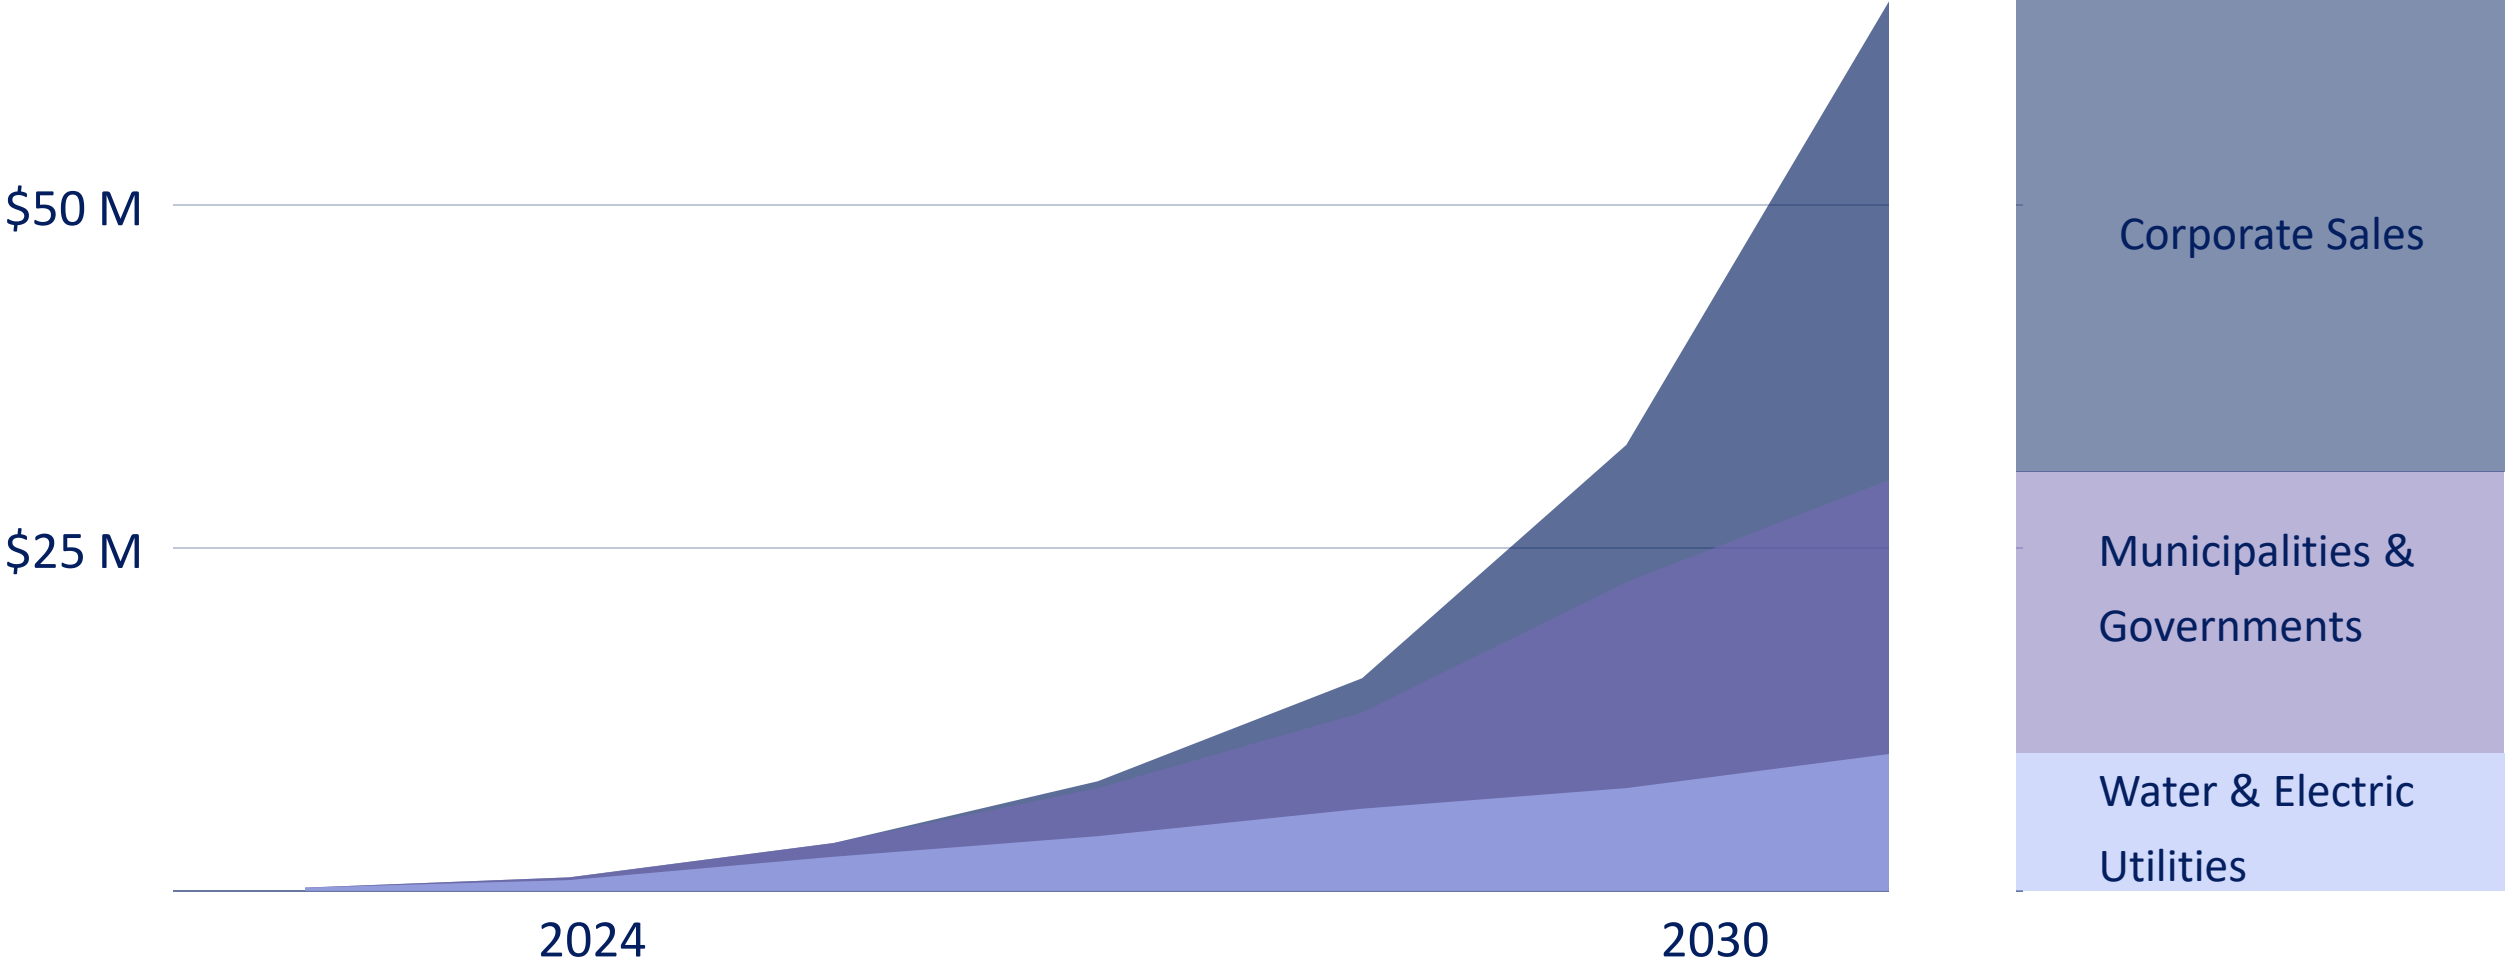

Programmes

40% Reduction in Emissions Accounting Cost and Time

75% of \$500,000 Pre-Seed Round Committed

OUR PROJECTED GROWTH
