Problem

Current transactions are slow, difficult and unsafe.

Real Estate is broken and outdated

The average time to sell a home in the European Union between 2020 and 2023 has increased

25%

SLOW

60%

of real estate agents in Europe reported that the bureaucratic burden of real estate transactions has increased

DIFFICULT

The number of housing scams reported in the European Union since 2018 has increased by

50%

UNSAFE

Our mission

Making the process of buying, renting or selling homes faster, easier and more secure.

and who we are.

Solution

An open transaction management platform, which enables all parties to a real estate deal to securely and compliantly communicate and share sensitive information

We need a Paradigm Shift

Winning the Market

Network Effects

Short-Term Gains, Long-Term Trust

Why Blockchain?

To make information easy to verify and hard to fake.

Unlocking trust, transparency, and efficiency

The vision

“We believe in an Europe where barriers to fair real estate transactions, investments, and ownership do not exist.”

“THE COMPLEXITY AND COST OF PROPERTY REGISTRATION IN SOME MEMBER STATES IS A SIGNIFICANT BARRIER TO INVESTMENT AND ECONOMIC GROWTH. IT IS ALSO A MAJOR SOURCE OF FRUSTRATION FOR CITIZENS AND BUSINESSES.”

This is a sentence from a study by the European Commission about Real Estate in 2022
