

WEBINAR

CPEV in the spotlight

**International development and future plans
of the Core Public Event Vocabulary**

Tuesday 24-09-2019

10:00-11:30 CEST

Organised by the SEMIC action of the ISA² programme

Webinar practicalities

Click on 'connect audio' but please mute your microphones

You can also share your questions for the Q&A sessions via the chat*

* One question after each speaker + Q&A discussion at the end

The webinar will be recorded

Agenda

1

Opening and introduction

Mr. Fidel Santiago – ISA² programme manager, DIGIT, European Commission

2

CPEV: State-of-play and future plans

Ms. Pavlina Fragkou – ISA² programme manager, DIGIT, European Commission

Q&A

3

Core Public Event Vocabulary - the Italian application profile in the national network of ontologies OntoPiA

Ms. Giorgia Lodi – IT Consultant, Agenzia per l'Italia Digitale (AgID)

Q&A

4

Public events data model in Japan

Mr. Kenji Hiramoto – Chief Strategist, National Strategy Office of IT, Government of Japan

Q&A

5

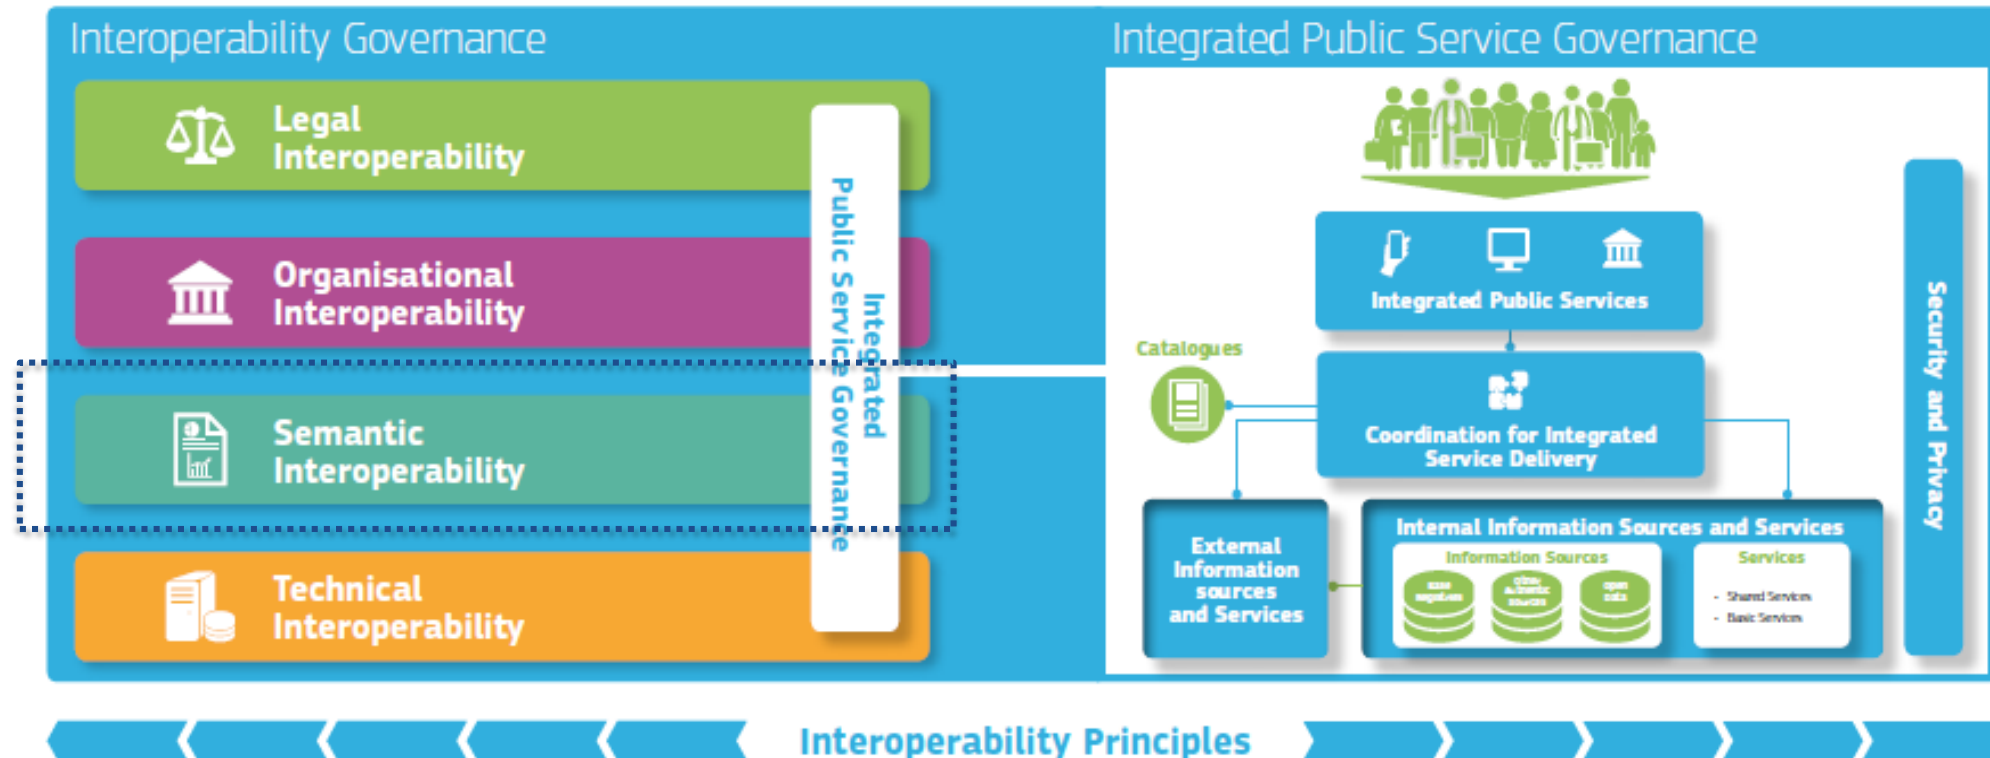

Q&A discussion and closing

Mr. Fidel Santiago – ISA² programme manager, DIGIT, European Commission

About the ISA² programme and SEMIC action

The ISA² programme supports the **development of digital solutions** that enable public administrations, businesses and citizens in Europe to benefit from **interoperable** digital public services.

European Interoperability Framework (EIF)

Objectives of the SEMIC action

- **Supporting alignments and agreements on common definitions and specifications** at the semantic layer for the Member States and the EU institutions.
- Increasing the **visibility of existing data standards and promoting the use of ISA² specifications**, such as Core Vocabularies, ADMS and DCAT-AP at the European, national and local level.
- Identifying needs for developing **new common data models**.
- **Supporting projects executed by European Commission services and EU countries** to promote semantic interoperability with pilots and expert advice.
- **Promoting best practices, experiences and lessons-learnt** in the area of semantic interoperability and raising awareness on the importance of semantic interoperability and appropriate metadata management policies.
- **Engaging with the SEMIC community**, in particular by organising community-building events.

Objectives of the SEMIC action

Promoting Semantic Interoperability amongst the EU Member States by:

Promoting, share and reuse of semantic assets, experiences and tools and facilitating agreements in key areas.

Identifying opportunities for alignment on semantic definitions, metadata and reference data sources with special focus on identification and definitions of Core Concepts / Vocabularies.

Raising awareness on the importance of data and metadata management.
