# EIGE's Gender Statistics Database

# Statistics

…

…insight and knowledge

…policy making and evaluation

…monitoring and measurement of progress

…independent and objective source of information

‘**Statistics play an increasingly vital role in many domains of our political and societal life**’

# Gender Statistics

> *`A field of statistics which cuts across the traditional fields adequately reflecting differences and inequalities in the situation of women and men in all areas of life`*

- data are collected and presented **disaggregated by sex** as a primary and overall classification

- data are reflecting **gender issues**

- data are based on **concepts and definitions** that adequately capture all aspects of women and men's lives

- data collection methods take into account **stereotypes and social and cultural factors** that may induce gender biases

# Why a Gender perspective?

- data **disaggregated by sex** are not exhaustive

- **social relationship** between women and men are more relevant than  biological differences

- important instrument for **Monitoring & Evaluation**

- fundamental tool to **mainstream gender** and develop **gender sensitive policies**

# The Goals

- awareness raising on how to produce and use gender statistics data/Identify statistics gaps

- encourage Member States to produce and use gender statistics

- Make visible the different contribution of women and men to economic growth

*In network with Statistics producers, Policy makers, Researchers, Media, Civil Society*

# **What's New?**

- ***Centralised source***
  - A single database providing access to gender statistics
  - Index-relevant statistics
  - Interface: tree-based + keyword search

- ***Metadata with gender equality concepts/methods***

# What's New?

- ***Computed data***
  - Allows comparisons in time and between countries
  - Derived gender statistics from macrodata

- ***"Automated" updating of data and metadata***

# Browsing trees

- Thematic areas

- Policy areas

- EU strategies

- Gender Equality Index

- Beijing Platform for Action (BPfA)

- Women and men in decision making

- **Gender-based violence (?)**

# Data sources

# Member States

# Navigation Design

- **Features a primary navigation menu**

- **Two mechanisms for accessing the indicators:**
  - Tree browser
  - Integrated search facility

- **Additional browsing support through:**
  - related indicators
  - intermediate pages
  - popular statistics

# Keyword search

# Other tools and functionalities

- **Indicator information:**
  - Reference Metadata
  - Dataset Information
- **Keyword pages**
- **Data Visualisations Export and Sharing:**
  - Data Export in multiple formats
  - Graph printing and exporting in various formats
  - API to query data based on SDMX
  - Social Media sharing for each page indicator
  - Feedback gathering tool

# Landing page

# Timeline

**2013**
- EIGE's Gender Statistics Database was established

**2014**
- Its contents and structure was developed

**2015**
- Gender Statistics Database was communicated to stakeholders

**2016**
- Gender Statistics Database published on web
- Current challenges

# Challenges

- to tackle and address gender statistics gaps

- to keep database updated and maintain its relevance for users

- to ensure database is consistent with EIGE`s message on gender equality and connected to other EIGE`s knowledge products

- to strengthen cooperation with statistical providers/producers and to build new partnerships

- all of the above in connection with gender equality - developments/progress within EU framework

- From the launch date (web), the database of gender statistics received 15% of the total page views on EIGE's website (15.872 page views).

- EIGE's videos on YouTube received 3489 views (32% increase compared to previous quarter). The most popular video was the introduction to gender statistics.

- online discussion – mid-June 2016

- meeting of the technical group – September 2016

What is measured becomes visible

What is visible
can be monitored

and gets improved!

# Thank you
