DIGIT B2 - Interoperability

Introducing the Common Assessment Method for Standards and Specifications (CAMSS)

Visual Storyboard

Course information	
Course Provider	European Commission
Course Title	Introducing the Common Assessment Method for Standards and Specifications (CAMSS)
Course Topic	An overview of the context, purpose and benefits of the CAMSS solutions
Course Type	IOP Academy elearning, SCORM-based
Course tags	Interoperability, eGovernment, European Interoperability Framework, Interoperable Europe, IOPEU Academy, Procurement, Standardisation, Specifications, assessment solution, CAMSS, Digital public services, innovation
Course summary	This eLearning course introduces the Common Assessment Method for Standards and Specifications (CAMSS), a DIGIT B2 action for assessing specifications and helping its inclusion within eGovernment projects. It covers CAMSS's role in interoperability and its relationship with the European Interoperability Framework (EIF), the European Standardisation Regulation 1025/2012, its application in eGovernment, and real-world examples. The course targets IT professionals and policymakers. It comprises interactive modules and use cases, amongst other possible materials. It aims to enhance understanding of CAMSS for effective contributions to EU eGovernment initiatives.
Target audience	The target audience includes: • IT professionals in public administration, • eGovernment project managers, • those involved in developing, implementing, or managing eGovernment solutions • policymakers • stakeholders in standardization processes within the EU.
Language	English
Level	Intermediate
Curriculum relevance	Category IOP007: Technical Interoperability
Learning Objectives	1. Understand what CAMSS is and why it is important to European systems interoperability 2. Recognise the different use cases for CAMSS. 3. Identify the different potential users for CAMSS 4. Identify relevant CAMSS Solutions.
Course format	25-minute self-contained SCORM

Course launch date	Jan 24
Course end date	Open
Dependency	IOP Academy introductory courses
Course duration	30 minutes
Select a course type	Certificated

Course Structure	1. Introduction, definition and key concepts
	2. CAMSS solutions:
	    • CAMSS Assessment Scenarios
	    • CAMSS Assessments
	    • CAMSS as a Service
	    • CAMSS ELIS
	    • CAMSS CSSV
	    • CAMSS CAV
	    • CAMSS ELAP
	3. Strategic positioning
	4. Quiz
