

Digital Public Administration infographic 2022 Cyprus

Highlights

Political Communications

In November 2021, the [National Broadband Plan 2021 – 2025](#) was published. It points out a roadmap for developing broadband infrastructure in the country, but also for the uptake of high-speed and ultra-high speed broadband services by citizens and businesses.

Legislation

Cyprus effectively transposed the [European Directive 2018/1973/EU](#) on establishing the [European Electronic Communication Law](#) into the national legislation in March 2022. It contributes to connectivity through VHC networks, among others.

Governance

The [Digital Security Authority](#) (DSA) acts as the Single Point of Contact and the National Competent Authority (NCA) for implementing the NIS (Network and Information Security) Directive (EU) 2016/1148 in Cyprus, whilst also incorporating the National CSIRT (CSIRT-CY).

Infrastructure

Cyprus is developing a government e-Consultation Portal which aims to serve as a single space where all public consultations will be published. The platform will enable citizens to submit comments/suggestions to all open public consultations, among others.
