

Digital Public Administration infographic 2022 Liechtenstein

Highlights

Political Communications

No new political communication in the field of digital public administration has been reported to date.

Legislation

No new legislation in the field of digital public administration has been reported to date.

Governance

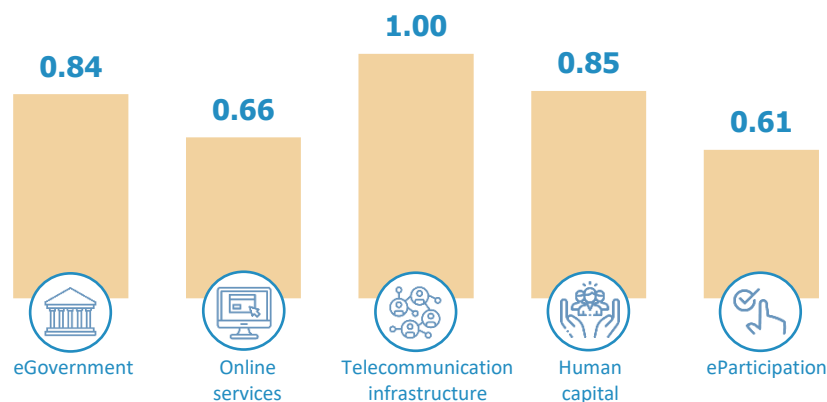

Between 2020 and 2021, the Government of the Principality of Liechtenstein established a new [National Cyber Security Unit](#). The National Cyber Security Unit is the central office for all matters related to cyber risks. It serves as a hub and intermediary for the general public, companies, operators of critical infrastructure and authorities.

Infrastructure

In February 2021, the public administration's internet presence was put on a new footing with the launch of [serviceportal.li](#). As a first step, serviceportal.li will be available for private individuals only. Then, between 2021 and 2022, the portal solution will be expanded with an area for companies as well as personalised services.

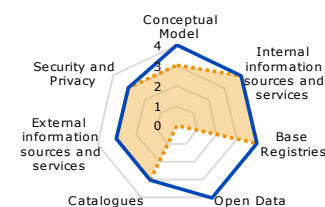

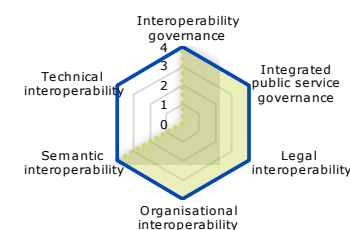

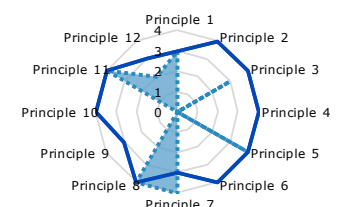

Digital Public Administration indicators

2020 eGovernment indicators*

* Liechtenstein is not required to supply complete data to Eurostat due to its small size and population. As a result, there are no values for the usual indicators contained in this infographic; instead, similar indicators are quoted from the UN E-Government Survey 2020.
