Reusability	
<b>Landscape</b>	<p>The diagram is a 2D plot illustrating the reusability of ISO02. The vertical axis represents the domain, ranging from 'Domain Specific' at the bottom to 'Domain Agnostic' at the top. The horizontal axis represents the adaptation effort, ranging from 'High adaptation effort' on the left to 'Plug and Play' on the right. A blue shaded region, labeled 'reusable', is centered in the plot. Within this region, 'cross-sector' is at the top and 'cross-border' is at the bottom. A brown circle labeled 'ISO02' is located in the 'cross-sector' area. A legend in the top right corner identifies the colors: brown for Framework, yellow for Service, and purple for Tool.</p>
