

Glossary of key terms and template for Reference Data	
Summary	
ID	LI09
Initiative	EULIS
Short description	Terms sometimes have different meaning in different land registries. This solution provides a multilingual glossary that defines a range of key terms in English (EULIS terms). There is a lookup table that includes the equivalent term in the language of the relevant country, together with an explanation in English of any significant differences or implications in the concerned country, compared with the standard EULIS term. All content on this site uses generic definitions.
Owner	EULIS consortium based on transnational cooperation
