

[LR01] Cross Border Electronic Conveyancing (CROBECO)

Cross Border Electronic Conveyancing (CROBECO)	
Summary	
ID	LR01
Initiative	ELRA
Short description	Process for foreign electronic purchases of real estate in countries where registration of foreign deeds is permitted. The project is named CROBECO . It aims to set out a European framework of rules and principles for a process that, for contractual and non-contractual obligations, is based on the law choice of the two parties and the use of digital means. The framework is referred to as the “Cross border Conveyancing Reference Framework” (CCRF). The CCRF focuses on bilateral agreements, with respect for existing legislation. This means that, although the existence of different systems will lead to different demands, the CCRF should be applicable in Member States (MSs) with different legal systems.
