[OS13] Catalogue of Code Lists (MDR – MetaData Registry)

Catalogue of Code Lists (MDR – MetaData Registry)	
Summary	
ID	OS13
Initiative	MetaData Registry

Short description	The Metadata Registry registers and maintains definition data (metadata elements, named authority lists, schemas, etc.) used by the different European Institutions involved in the legal decision making process gathered in the Inter-institutional Metadata Maintenance Committee (IMMC) and by the Publications Office of the EU in its production and dissemination process.
	The following definition data are maintained in the Metadata Registry:
	  - Named Authority Lists (Common Authority Tables/Value lists)
	  - IMMC Core metadata exchange protocol
	  - European Legislation Identifier (ELI)
	  - OP Core metadata element set
	  - EuroVoc thesaurus and alignments (SKOS/XML distributions)
	  - Common Data Model (CDM) - Ontology of content and metadata repository CELLAR
	  - OJEEP (Official Journal Electronic Exchange Protocol)
	  - Style sheets for presentation
