Seasonal School 2026 – Roadmap

Session 3 - A practical walkthrough of the Assessment Toolbox

Session 4 – Explore interoperability solutions you can reuse in your project

Session 5 - From code to reuse: inside the EU Open Source Solutions Catalogue

Session 6 – EIRA & eGovERA in practice: Real-World applications in digital public services

interoperable europe

Step 2

How do we reuse existing solutions instead of starting from scratch?

Explore interoperability solutions you can reuse in your project

Bernard Claes

Session 4

Interoperable Europe Academy
Seasonal School 2026

09-10 JUNE 2026

Agenda

01 What is an interoperability solution?

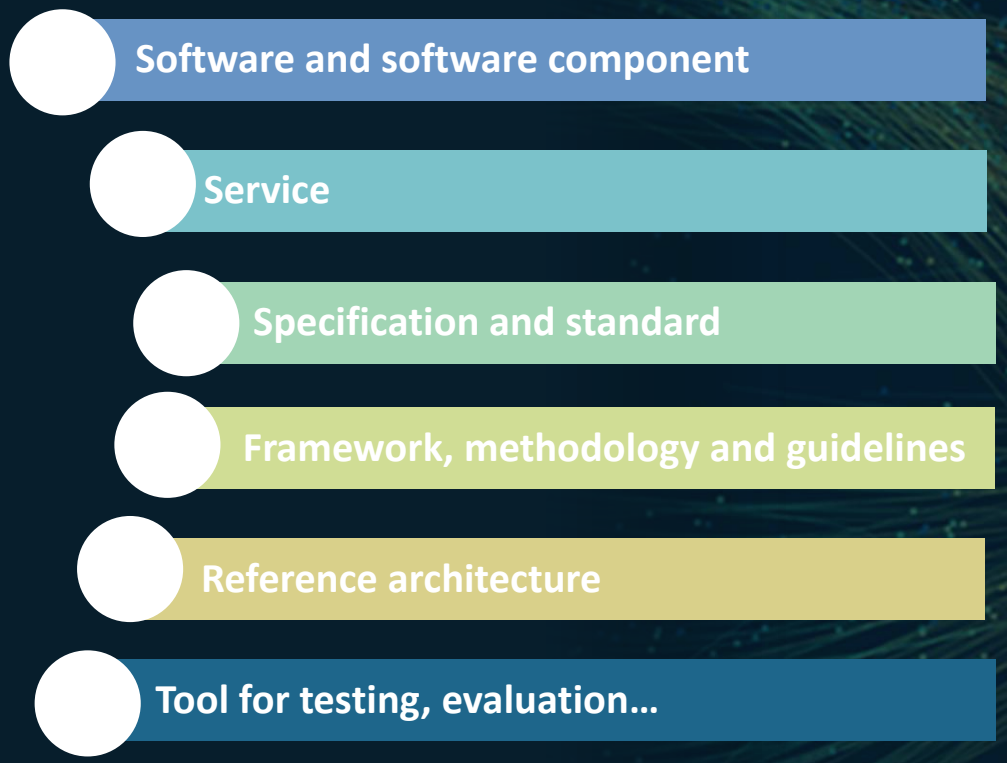
02 What kind of solutions can I find in the catalogue?

03 Where to start?

04 What is the difference between the catalogues ?

What is an interoperability solution?

“An interoperability solution is a reusable asset concerning legal, organisational, semantic, or technical requirements to enable cross-border interoperability”,
Interoperable Europe Act, art. 2 (4).



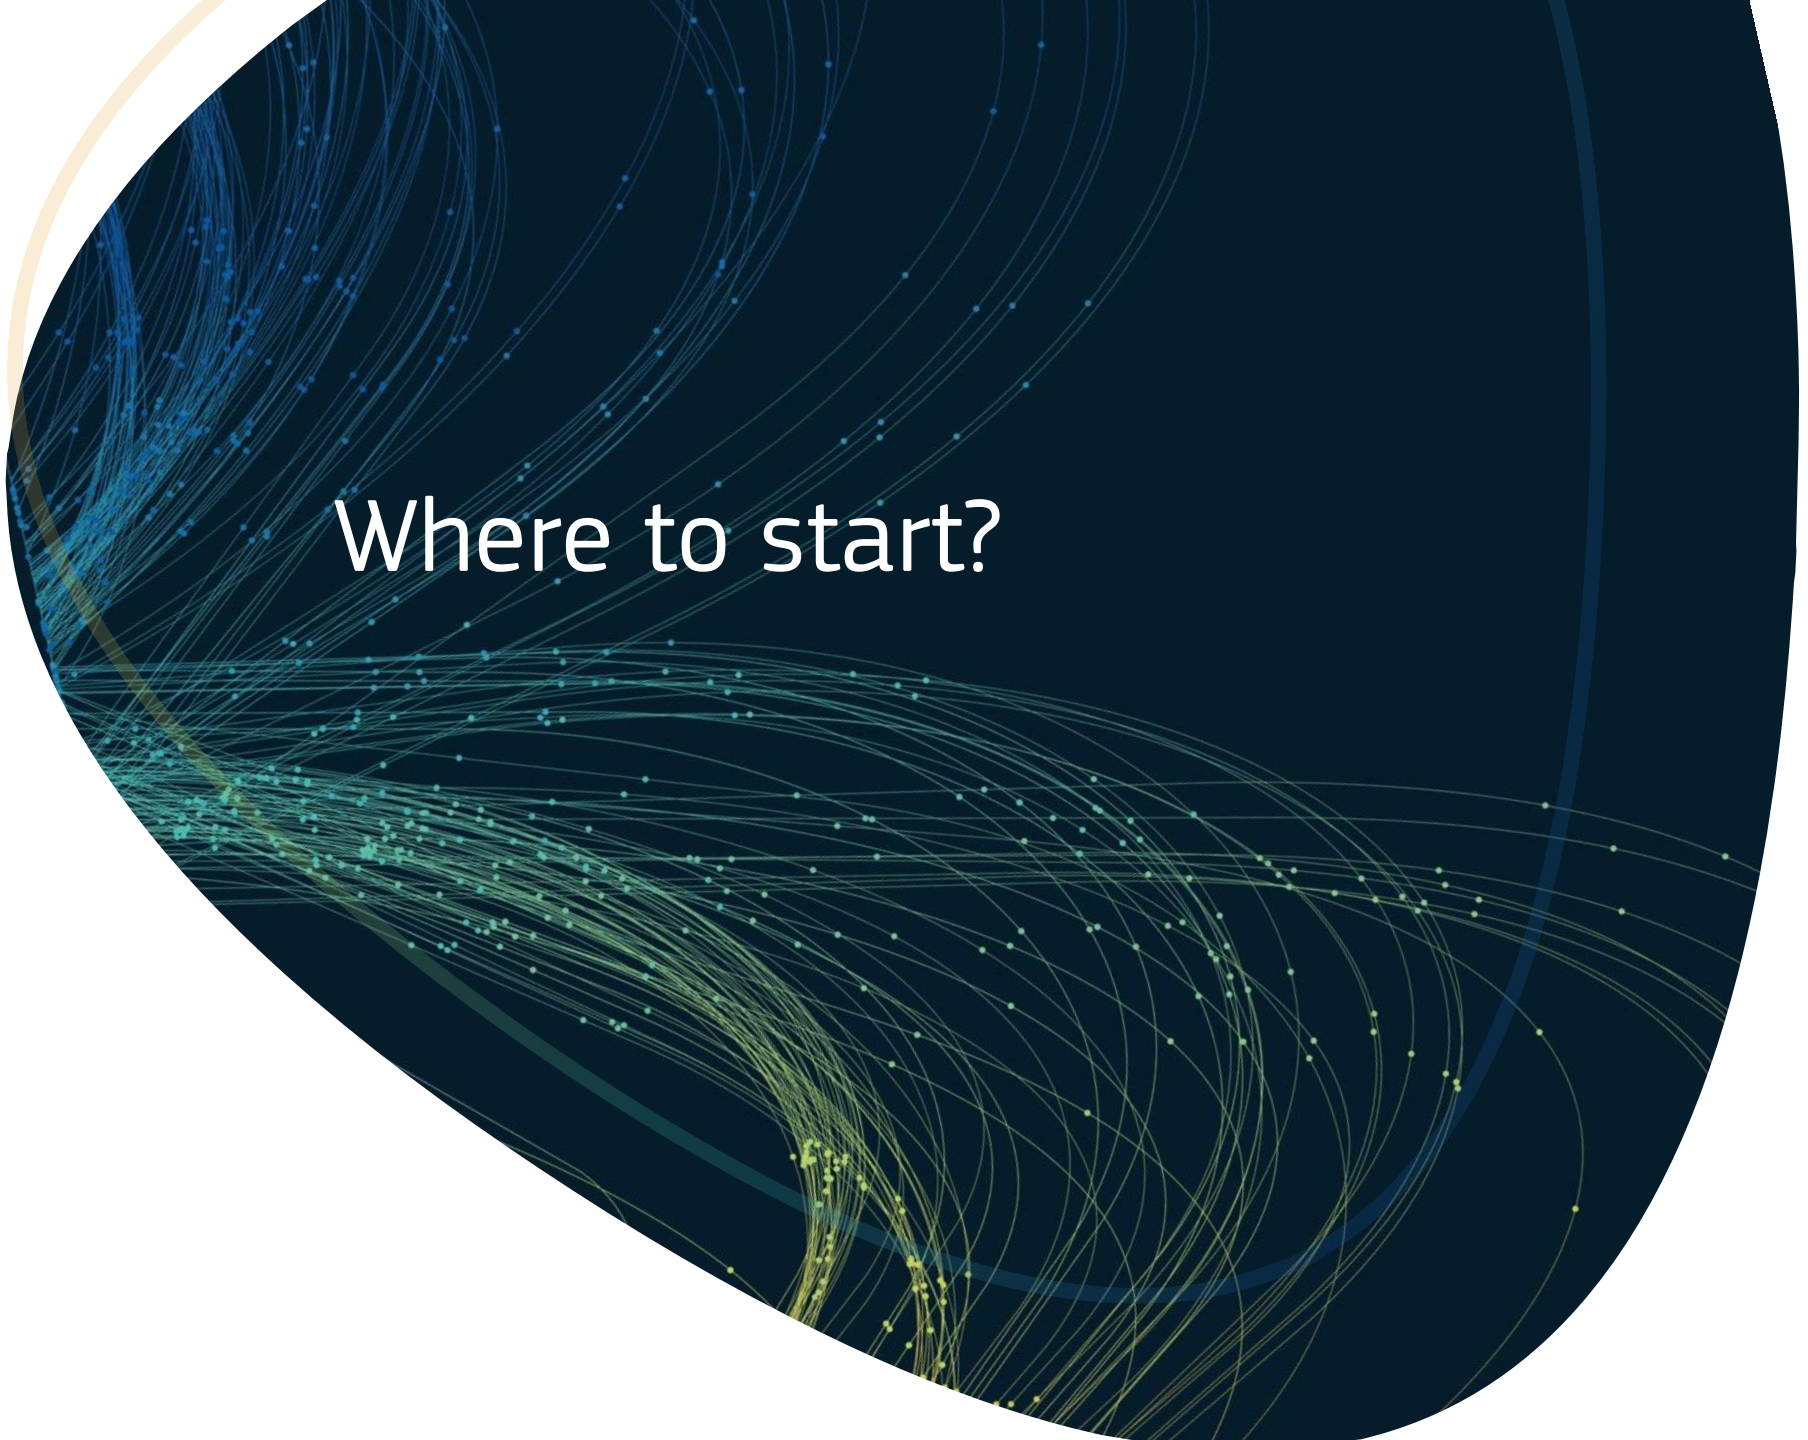
What kind of solution can I find in the Catalogue?

Examples

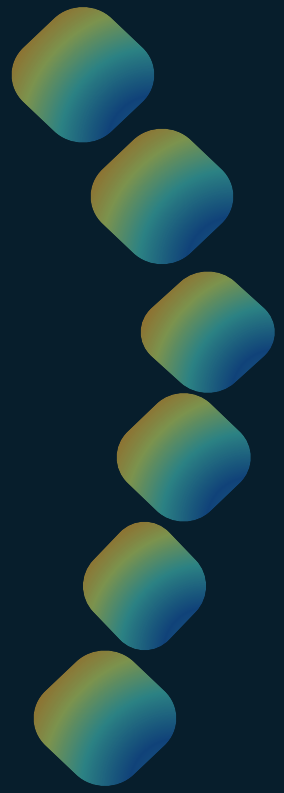
- Software and software component
- Service
- Specification and standard
- Framework, methodology and guidelines
- Reference architecture
- Tool for testing, evaluation…

- eDelivery Domibus for secure exchange across borders
- eTranslation
- Core vocabularies
- European Interoperabilty Framework
- eGovERA for health, taxation or mobility
- TestBed

Where to start?

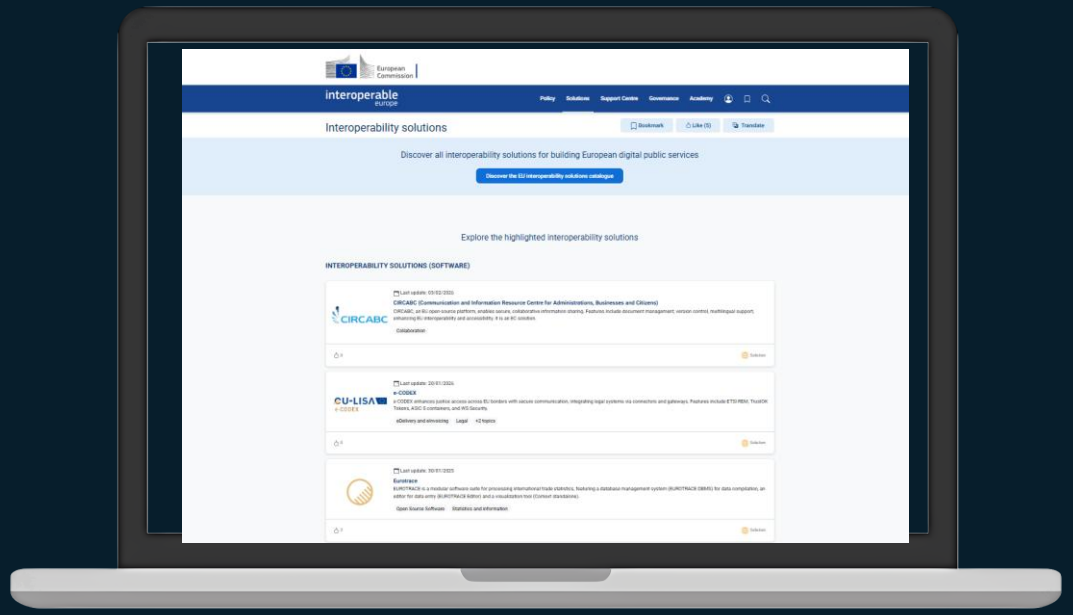


- Explore solutions
- Like a solution
- Follow a solution, ask question
- Attend a webinar
- Take a course on a solution
- Publish your solution



Difference between catalogues

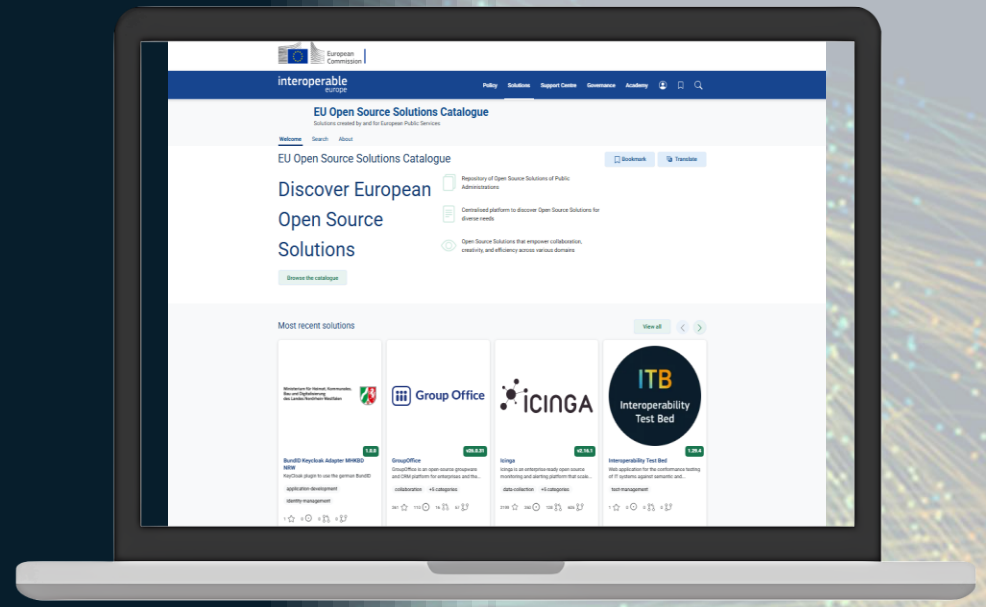
Interoperability Solutions Catalogue



Focuses on interoperability solutions

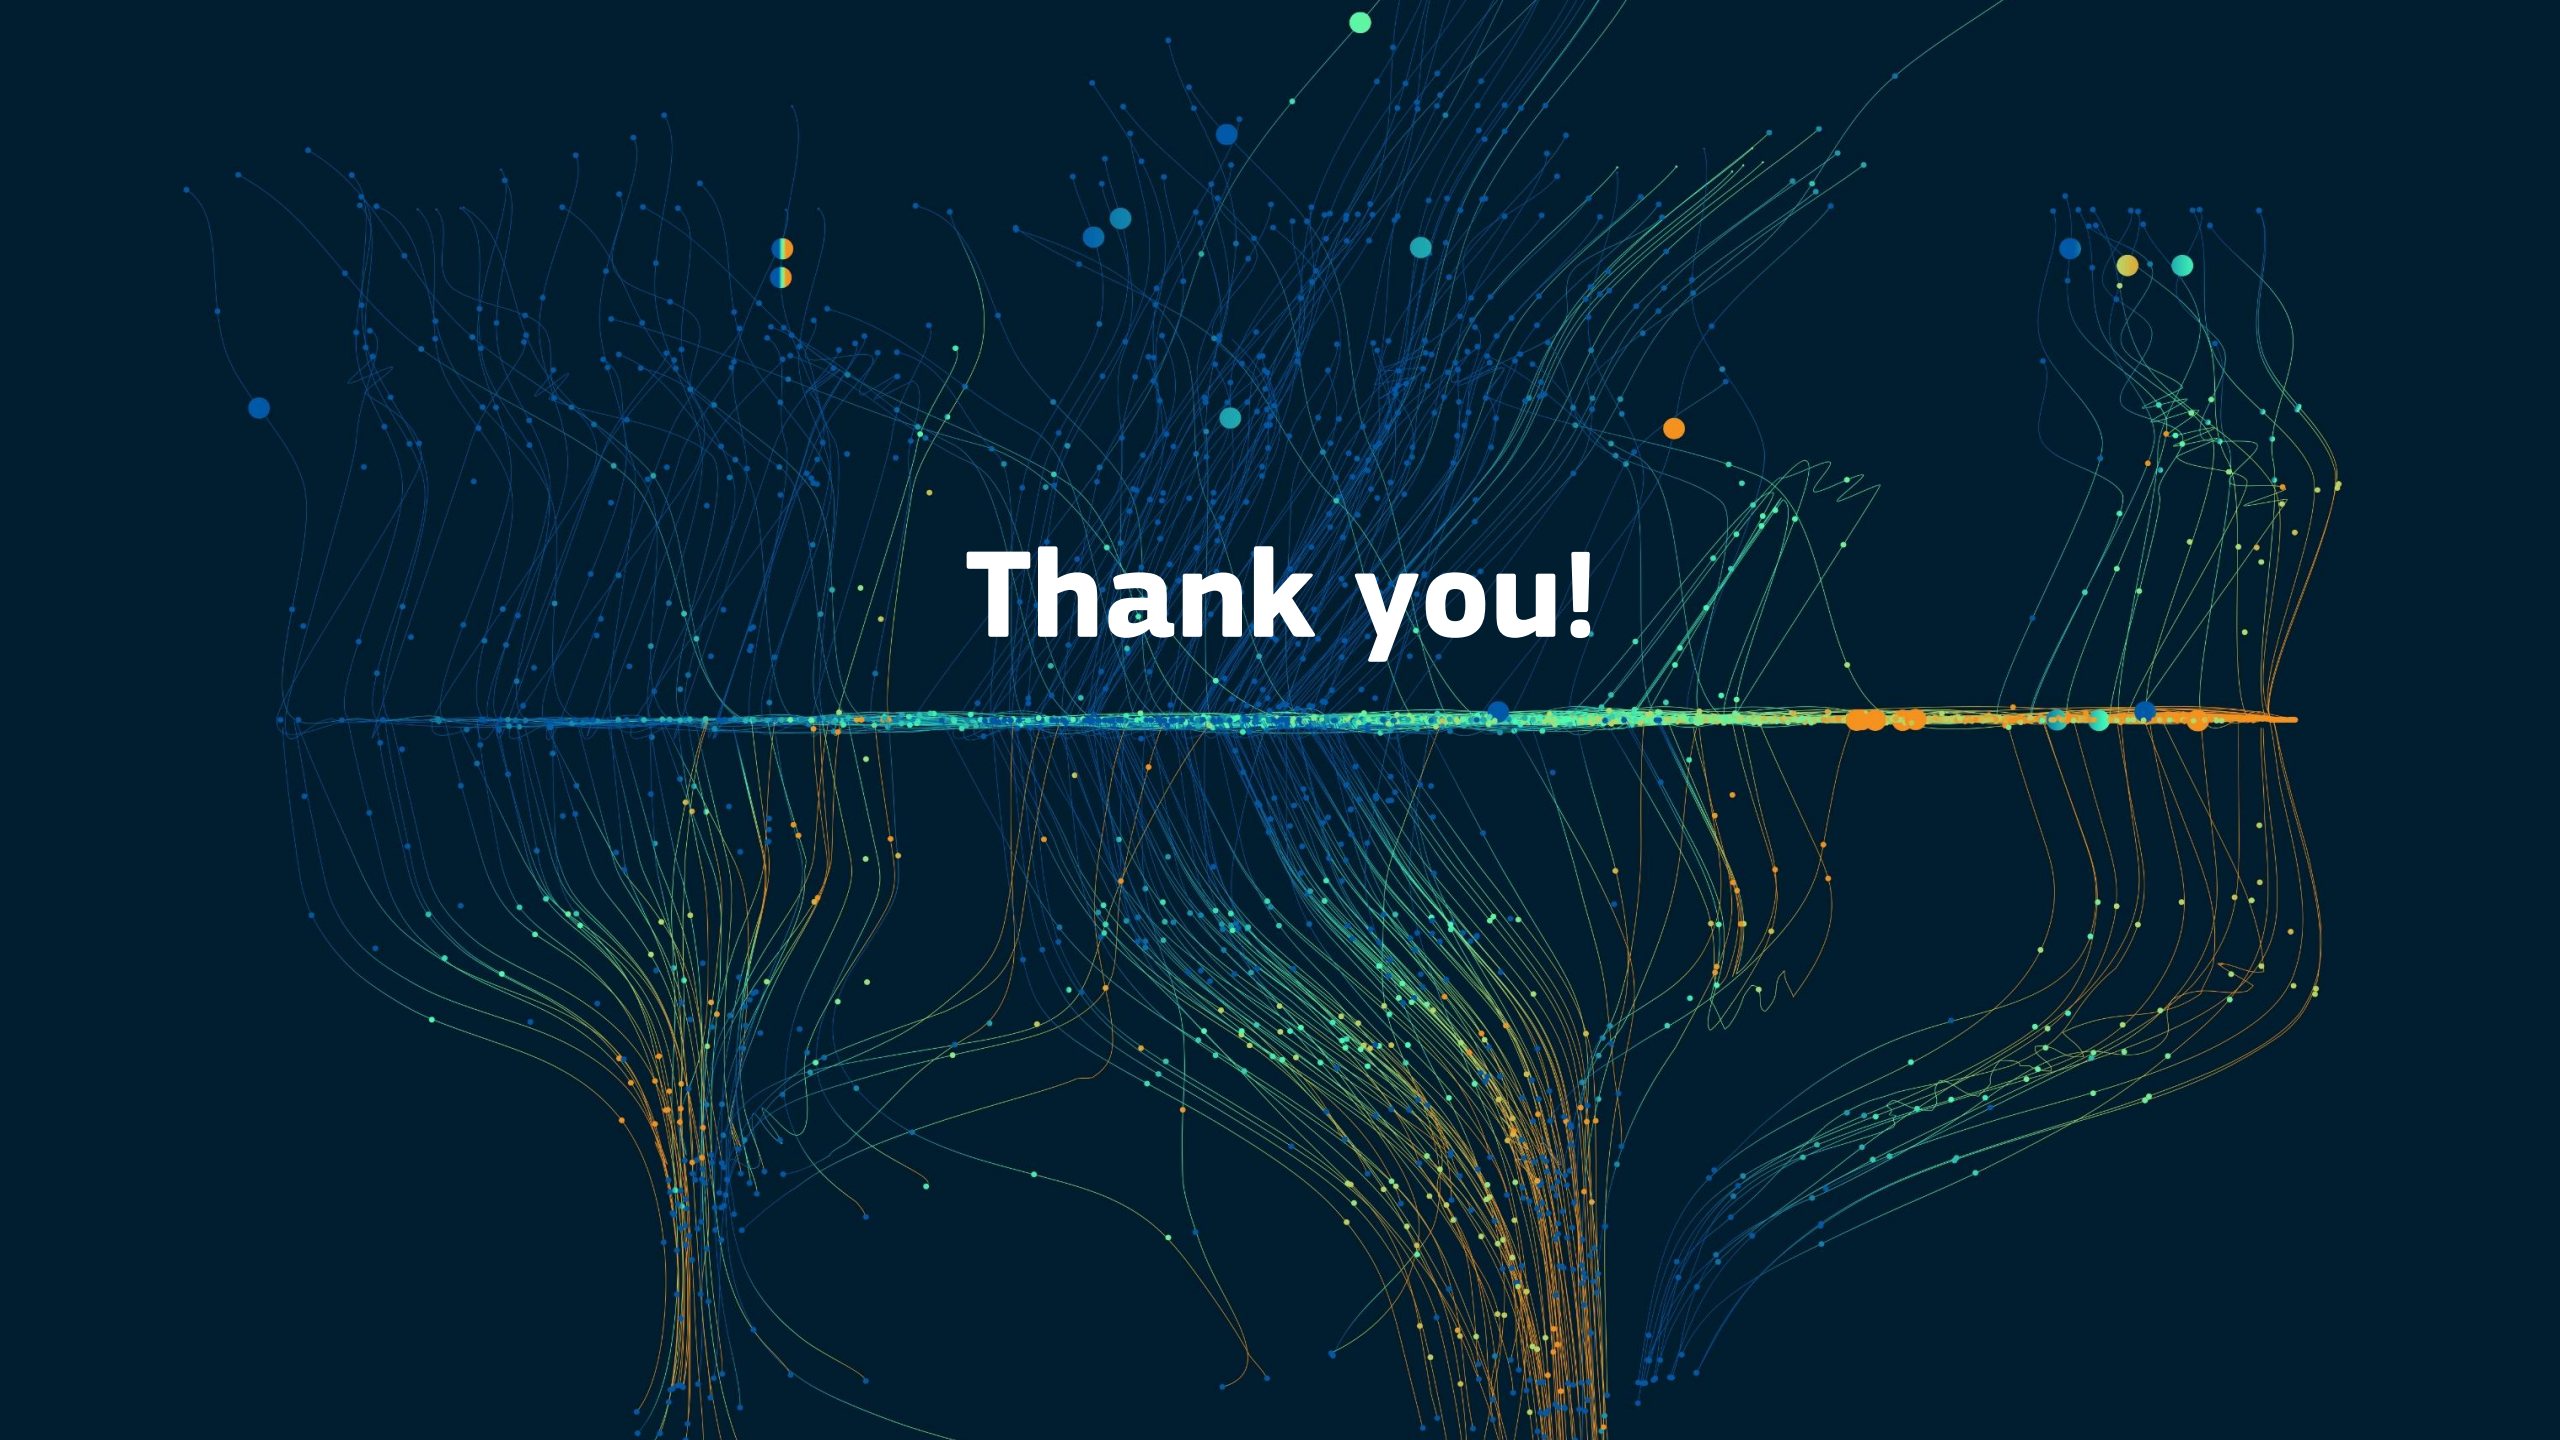
- Provides **EU interoperability solutions** that support the development of cross-border digital public services
- Collaborative community with interoperability experts, webinars, discussions and news.

EU Open Source Solutions Catalogue



Focuses on open source solutions.

- Provides **EU open-source solutions** developed or used by European public administrations
- Federates EU open-source catalogues.



Thank you!
